

PREDATORS AND PREY ON THE SAVANNAH

Make an observation chart while viewing animals.

GRADES 4-8

KEY WORDS

- predator
- prey
- adaptation

STANDARDS

- SCI.6.3.5

OBJECTIVES

- Students will observe various animals and record observations.

PROCEDURE

- While observing the various African predators and prey, have students fill out the worksheet.

RECOMMENDED ASSESSMENT

- Students' worksheets are graded based on completeness.
- Discuss observations of the animals.

PREDATORS AND PREY ON THE SAVANNAH

Name _____

Complete the chart below as you walk through the African Journey; your observation skills and knowledge of animals will help you answer the questions.

<u>PREDATORS</u>	<u>THEIR PREY</u>	<u>HOW DO THEY CAPTURE THEIR PREY?</u> (stalking, ambush, etc.)	<u>SPECIAL ADAPTATIONS FOR HUNTING</u> (claws, speed, eyesight, etc.)
Serval			
Hyena			
Honey Badger			
<u>PREY ANIMALS</u>	<u>THEIR FOOD</u>	<u>THEIR PREDATORS</u>	<u>HOW THEY AVOID BEING EATEN</u>
Zebra			
Wildebeest			
Reticulated Giraffe
