

"RAINBOW" FOREST

Observe the colors in the Indonesian Rain Forest

GRADES K-3

MATERIALS

- clipboard

STANDARDS

- SCI.K.1.1
- SCI.K.3.2

OBJECTIVE

- Students will learn about the diversity of the rain forest.

PROCEDURE

- When at the zoo, have the students place a check on the chart each time they see the colors listed on the worksheet.

RECOMMENDED ASSESSMENT

- Have the students compare their counts and decide which color that they saw the most in the rain forest.

EXTENSIONS

- As a class, create a chart of the colors and the numbers that each student recorded for each color.
