

SAVANNAHS OF THE WORLD

Geographic locations of savannahs

GRADES 4-8

MATERIALS

- crayons
- coloring pencils

KEY WORDS

- savannah
- climate
- biome

STANDARDS

- SS.7.3.6
- SS.7.3.8
- SS.7.3.10

OBJECTIVES

• Students will understand what savannahs are and be able to identify them on a map.

BACKGROUND INFORMATION

- Savannahs are tropical grasslands that are found around the world near the equator.
- A warm climate with a dry and rainy season helps savannahs grow.

PROCEDURE

- Teach students about the savannah biome
- Have students complete worksheets by shading in the parts of the map where savannahs are located.

RECOMMENDED ASSESSMENT

• Grade students on worksheet completeness and correctness.

SAVANNAHS OF THE WORLD
