

## Kids for Nature: Spring Break Camp

### Conversation Starters for Parents:

#### Zoo Tots

- What was your favorite animal you met during your Zoo hike today?
- What area of the Zoo did you get to explore today? What did it look like?
- What types of animals like to live there? How do those animals move?
- What animals did you learn about during Storytime?
- What special animal did you get to meet up close today?

#### Zoo Explorers

- What was your favorite animal you met during your Zoo hike today?
- What area of the Zoo did you get to explore today? What did it look like?
- What types of animals did you see?
- What do those animals need to survive?
- What adaptations do those animals have to survive in the changing seasons?
- What animal did you meet at the Zoo Education Center today?
- What is something we can do to help animals and nature?

## Zoo Investigators

- What was your favorite animal you met during your Zoo hike today?
- What area of the Zoo did you get to explore today? What did it look like?
- What animals did you see?
- What adaptations help them survive during the changing seasons?
- What animal did you meet at the Zoo Education Center today?
- What are some differences between our habitat and the area you explored today?
- What is something we can do to help animals and nature?
- How did the Zoo Keepers replicate the animals' wild habitats in their Zoo habitat?
- What special, behind-the-scenes areas were you able to see today?
